

Can this

turn into this?

Impacts of Buffel grass (*Cenchrus ciliaris*) on fauna, ecosystem function and culture in the arid landscape APY Lands

2000 Kalka, western APY Lands, puli (hill country)

2009

Fregon, eastern APY Lands, karu (creekline) 1997

2010

Develop a conceptual
model

Longer term **OVER-STOREY** loss especially
with fire, shift to grasslands

Shorter term **UNDER-STOREY** loss of
floristic diversity and structural change

Relevance to buffel grass management – share knowledge during resurveys, raise awareness, may find consumer of buffel seed, protect trees from fire
