

YORKE PENINSULA COUNCIL

WEED MANAGEMENT

Agriculturally rich~Naturally beautiful

6th SA WEEDS CONFERENCE

2 & 3 MAY 2018

Yorke Peninsula Council Weed Spray Operators : -

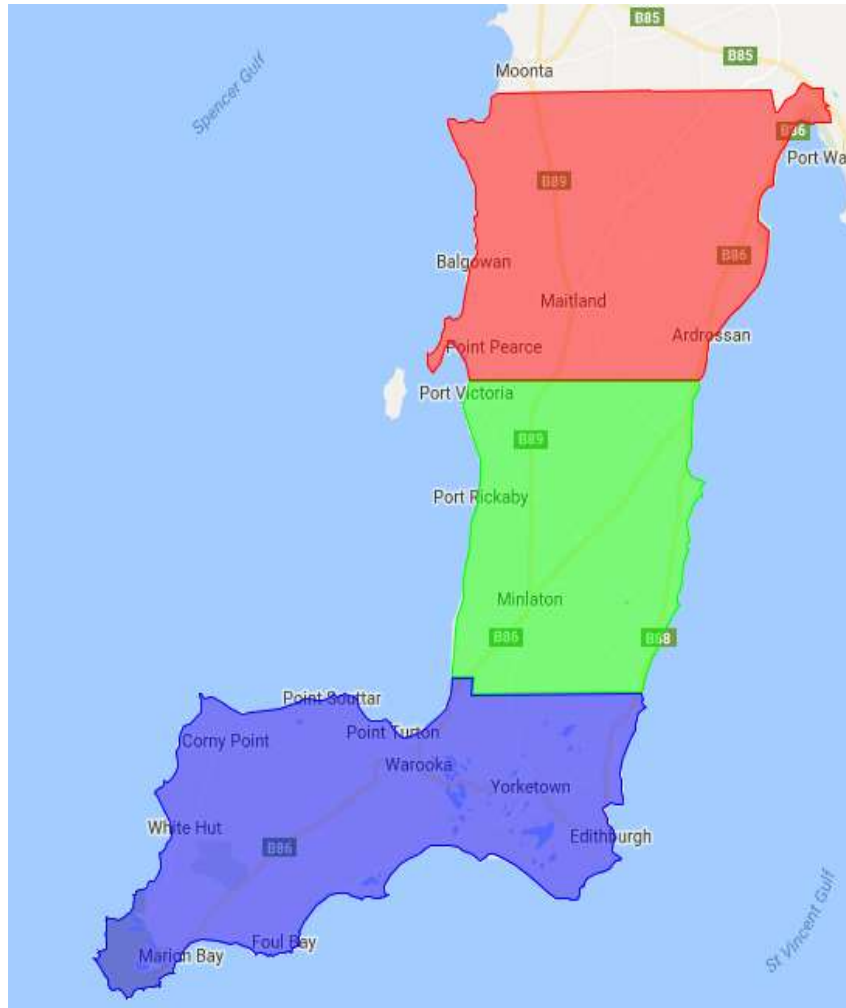

Paul Stockley - Northern

Darryl Gum - Central

Stephen Preuss - Southern

Craig Preuss (absent) Southern

Yorke Peninsula - Weed Management

The total area of Yorke Peninsula Council is 5,899.6 kms² and we have 485 kms of coastline. We have a wide range of diverse weeds within our area, in which we manage through our weed management program.

Our road network consists of the following : -

- 431 kms sealed roads

- 3,238 kms unsealed roads

- 215 kms unformed roads (un-made road reserves)

- DPTI road network: 564 kilometres

Our manageable area is broken down into 3 areas – North, Central and South and each weed sprayer needs to maintain their area.

Our management of weeds is largely done on a seasonal basis and we have a spray program in place to assist us in this task.
